#### Overview

Giles is widely recognised as a robust, thorough advocate and an insolvency expert who has been consistently noted as a leader in his field. He is Junior Counsel to the Crown (Regional Panel A) and is experienced in dealing with substantial commercial litigation. Over the last 26 years he has appeared at all levels up to and including regular appearances in the Court of Appeal and even in the Supreme Court of the Seychelles and in the Supreme Court of Gibraltar.

He has a clear grasp of commercial issues and how best to overcome them. He works with his clients, favouring a team approach, particularly when faced with complex issues. With an in-depth understanding of the commercial world, he is adept at keeping his clients informed and aware of any issues that may arise at the earliest opportunity. Giles is a truly commercial litigator in terms of approach to his cases and his clients' interests and needs. He recognises the importance of achieving his clients' aims and objectives (whether at trial or through ADR) as quickly and as cost effectively as possible.

His practice has a particular emphasis on company and insolvency work (both contentious and non-contentious) including disqualification for DBEIS and occasionally for the director, public interest petitions and provisional liquidations for the Insolvency Service, preference, misfeasance and other work for liquidators and other office holders including company administrations, corporate and individual voluntary arrangements and receivership problems, shareholder disputes, and individual bankruptcy work.

In recent years he has successfully acted as the leading Counsel for the Secretary of State in what was then the largest public interest petition brought by Companies Investigations.

Giles has also recently appeared in the Supreme Court of Gibraltar, where he successfully appealed against a decision of a liquidator of a foreign insurance company in order to confirm a substantial proof of debt based on a UK judgment; and has dealt with the high profile insolvency of the Redcar based steel business operated by SSI UK Ltd, now in liquidation and the actions and investigations of DBEIS following the collapse of BHS.

He is currently representing over 300 claimants in a multi-million pound corporate fraud case in the Cayman Islands arising out of the CWM FX Ponzi scheme scandal.
