Education

LLB (Hons) Liverpool University

Local Government & Social Housing

Roger's personal injury practice has always included representing local authorities, in a wide range of employee, industrial illness and general accident claims arising from public liability situations. He has particular experience of highways, school and sports centre claims.

As a result of many years working with local authorities, he is well aware of the challenges they face and is used to working as part of a team to address these.

Beyond the Bar

Roger is a keen supporter of Liverpool FC, regularly attending at Anfield. He enjoys cycling both as to his own feeble attempts to get enough exercise but also to follow the progress of British cyclists in the continental grand tours. He also enjoys reading and the theatre.
